SPECIAL

AUBREY
O'DAY

She's only 27 years old, but **Aubrey O'Day** is already opting for injections. The *All About Aubrey* star "looks as if she had fillers put in her face to smooth out the sharp angles, especially at the sides of her nose and the corners of her mouth," says NYC-based plastic surgeon Dr. Norman Rowe, who hasn't treated Aubrey. He thinks she also plumped her kisser slightly. "It gives a great shape to her lip without getting mistaken for Daffy Duck." ★

MELISSA
GILBERT

Now that she's a single woman, former *Little House on the Prairie* actress **Melissa Gilbert** has a brand-new look for when she jumps back into the dating pool. Melissa — who just split from her husband of 16 years, **Bruce Boxleitner** — "looks like she had a lip-plumping procedure, especially in the lower lip," says Dr. Rowe, who hasn't treated the 46-year-old. "It also seems like she has had a deep laser resurfacing performed to take care of fine lines and refresh her tired-looking skin. It gives Melissa a more youthful appearance without the need of a traditional face-lift procedure." ★
